BcA. Zuzana Malina Cernohousova, born 21. 06. 1980, based in Prague, Czech Republic, is enrolled at the Institute of Creative Photography, Silesian University in Opava, currently in Master's degree programme (following the Bachelor's one, with accreditation to 31/12/2024) N8204 ITF Film, Television and Photographic Art and New Media, the field of study Creative Photography, guaranteed by Faculty of Philosophy and Science in Opava, Czech Republic.

The research work of BcA. Zuzana Malina Cernohousova within her photography and visual anthropology projects in order to complete her master degree theoretical thesis on topic "Photography with unseen faces" and practical thesis on topic "Elements – Life comes from the Sea", extended also for public benefit and further continuation in the projects of Photoillustrata <https://www.photoillustrata.art> is of great interest and should be generously supported to enable it to continue and develop.

I can give my recommendation upon my own personal experience of our cooperation on literary projects and art related communication with Zuzana Malina in past years, which were meaningful both in Czechia and Mallorca.
